STECK, SHELOR & SCHRODER.

Communications of a personal character charged for as advertisements.

Obituary notices and tributes of respect, of not over one hundred words, will be printed free of charge. All over that number must be paid for at the rate of one cent a word. Cash to accompany manuscript.

WALHALLA, S. C.:

WEDNESDAY, JANUARY 27, 1915.

## SEIZED AMERICAN SAILORS.

Men Who Formed Crews of Cotton Ships Arrested at Bremen.

Washington, Jan. 21. While the American government to-day awaited Great Britain's explanation of her seizure of the American steamer Greenbrier, it developed that American sailors of her crew as well as those of the steamer Carolyn, which sailed from Savannah, had been arrested by German authorities at Bremen.

In a dispatch from the State Department that the sailors had been released and were free to join their ships, the American consul at Bremen gave first information that the sailors had been arrested, but added no details. Officials here could only suppose that the men might have been arrested for misconduct ashore or possibly detained until the departure of their ships to suppress any military information they might gain.

The Greenbrier, whose detention is now the subject of diplomatic negotiations, sailed from New Orleans and Norfolk with cotton for Bremen under a certificate issued by the British consul at Norfolk. Her commander complained a British cruiser seized his ship on the high seas, hoisted the English ensign and damaged the vessel in navigation before he was permitted to proceed to Bremen.

The Carolyn also carried a cotton cargo. Apparently she got through without interference, and the arrest of her sailors is her first appearance in international incidents arising out of the transportation of cotton to Germany. She called at Falmouth, however, before proceeding to Bremen.

Secretary Bryan's request for information of the circumstances surrounding the seizure of the Greenbrier has been received at the British embassy here, which withholds comment. Advice is expected at the State Department after communication between the embassy and the London foreign office.

The detention of the sailors at Bremen is expected to be explained in later dispatches.

**Piles Cured in 6 to 14 Days**  
Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Piles, Bleeding or Protruding Piles in 14 days. The first application gives Ease and Rest. 50c

## Strike Riot in New Jersey.

Roosevelt, N. J., Jan. 26.—Fourteen men were shot and four of them mortally wounded in a pitched battle here to-day between 250 striking laborers and 50 deputy sheriffs, at the American Agricultural Chemical Co. plant.

According to strike leaders, total casualties were 19, with one dead. The fight occurred when the strikers, it was said, stopped a train and searched it for strike-breakers. None were aboard. A few office employees, who were passengers, started the outcry, fearing attack. The deputies responded, and a general encounter followed.

## CLEANSSES YOUR HAIR, MAKES IT BEAUTIFUL.

It Becomes Thick, Wavy, Lustrous and All Dandruff Disappears—Hair Stops Coming Out.

Surely try a "Danderine Hair Cleanser" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.—Adv.

## MR. KIRBY PHILOSOPHIZES.

Says Farmers Have Eaten too Freely of the Forbidden Fruit.

Savannah, Jan. 21.—Editor Keowee Courier: Samson was the strongest man in the world, but Solomon had more knowledge than any man in the world, and Joseph kept the people from starving. Moses and Aaron led the Israelites across the Red Sea, but Job was the man that had such refined attitudes.

We are all strong as Samson, but weak in knowledge. We are just about in the same shape Moses and Aaron were when they went to deliver God's message to Pharaoh. Now, let's reason this thing out before we are swallowed up like Aaron's rod did Pharaoh's.

To start with, the devil had promised his angels more than he had capital, and his bank went broke, and the price of cotton went below zero—about 3 cents below cost. Now, the idea comes false the advice to use half the amount of guano per acre to get even, but I will advise something like this: Stay at home, work hard every day; don't do anything because it is cheap, for nothing is cheap unless you are obliged to have it. Plant sufficient good stuff to do your family and stock, then plant all the cotton you can work and gather, and use not less than 300 pounds of guano per acre or over 350 pounds per acre of 8-2-2 or 10-2-2. Then be honest and truthful to yourself and family, and likewise to your friends and neighbors. We must have more faith than Peter had when he tried to walk on the water.

Truth, energy and faith are the things we need at present. When the Prophets wrote the laws they explained every hobble that man was liable to be caught in, so we have no one to blame for the trouble we are in. We are the cause of it all. We have been trying to build separate towers to get an earthly heaven in the way of automobiles, high living, carriages and expensive clothing. But the price of cotton has confounded the languages and now each individual is trying to get out of the hobble by advising to plant all corn, or all grain, or by the use of half the guano that has been used. Guano is the cause of but very little of the trouble.

The men who chewed the fruit of knowledge are in no trouble or worry about the price of cotton or anything else in connection with this panic. We can get drunk on many things besides alcohol. Whenever you get on the extreme in any way you are drunk, and when you plant all corn, grain or all cotton you are getting under the influence of bad judgment, and bad judgment is sure to end in a loss or a complete break; and when a man gets more like stock of any kind than his farm can supply he is sure to end in a loss.

As I see the situation, we need more work stock—better stock—and sufficient hogs and cows on each farm, and no more at present. At least let us get the pastures built and the grass to growing before we try to raise hogs and cattle very extensively.

We should balance our methods of raising and growing stock just the same as we should do in preparing a balanced guano for our crops. Business will revive again when we get everything on a balance. Life is going to be more pleasant in the near future. I think every one has taken his medicine and become wiser by reason of his loss; and by the time the ground gets dry every farmer will be good and rested and willing to take one more trip around the world.

We have a law that compels a man to pay taxes on automobiles. Why not have a law that will make all persons who use tobacco and whiskey pay a tax of from \$10 to \$25, for either one of them is more dangerous than an automobile, and it costs about the same to run either one of the three machines. At any rate, no merchant should be allowed to sell any minor under the age of 21 years any tobacco, and if any person over the age of 21 buys tobacco for a minor, put the punishment on the person that buys the tobacco for him. Also make it an offense punishable by fine to sell minors cigarettes, the same as tobacco. For instance, think how many boys and girls the money spent for tobacco and cigarettes would educate every year! No wonder we complain of hard times. Then see the money spent for whiskey. We may drink, chew and smoke, but will never find an earthly heaven, for God told Adam something like this:

And unto Adam he said, "Because thou hast hearkened unto the voice of thy wife, and hast eaten of the tree of which I commanded thee, saying, thou shalt not eat of it, cursed is the ground for thy sake. In sorrow shalt thou eat of it all the days

## STRANGE CASE OF LIEUT. CLAY.

Lost All Memory, Failing to Know His Own Identity.

Atlanta, Jan. 19.—One of the strangest cases of aphasia—loss of all memory—on record is that of Lieut. Frank B. Clay, of Marietta, Ga., a son of the late Senator A. S. Clay, who was found yesterday afternoon wandering in a Louisiana village without the slightest knowledge of his own identity. He had been missing more than a month.

Herbert Clay, his brother, went to New Orleans Saturday on the trail of his missing brother, who had been last seen there on December 18. He found after a search that Clay had checked his baggage at a station, but had never called for it, and a longer search showed that the missing man had walked out of town. Letters found in Reserve, La., indicated that he had been there, and the inhabitants remembered a stranger, rather well dressed in civilian clothing, who had wandered through the town on foot, looking for work, and evidently unbalanced mentally.

Herbert Clay traced this stranger to the little town of Grayville, La., on the Mississippi river, found he had left there, and took a railroad hand car for the chase. Telegrams late yesterday afternoon announced that Frank Clay had been found.

Lieut. Clay, a regular army officer, had been in the Philippines for three years and was on his way home. He believes that a malady caused by the islands resulted in his strange condition.

## Half Your Living Without Money Cost

A right or wrong start in 1915 will make or break most farmers in the Cotton States. We are all facing a crisis on cotton. Cotton credit is upst. The supply merchant cannot advance supplies on 1915 cotton. You must do your best to produce on your own acres the food and grain supplies that have made up most of your store debt in the past.

A good piece of garden ground, rightly planted, rightly tended and kept planted the year round, can be made to pay half your living. It will save you more money than you made on the best five acres of cotton you ever grew! But it must be a real garden, and not the mere one-planting patch in the spring and fall.

Hastings' 1915 Seed Book tells all about the right kind of a money-saving garden and the vegetable to put in it. It tells about the field crops as well and shows you the clear road to real farm prosperity, comfort and independence. IT'S FREE. Send for it today to H. G. HASTINGS & CO., Atlanta, Ga.—Adv.

## Cotton Subjected to X-Ray.

Boston, Jan. 21.—With every bale subjected to an X-ray test the steamer J. L. Luckenbach began taking on a cargo of cotton and wool for Bremen to-day. Customs officers and representatives of the British consulate were present.

## "TIZ" FIXES ACHING, SWOLLEN, SORE FEET.

How "TIZ" Comforts Tired, Sweaty, Calloused Feet and Burning Corns—Can't Beat "TIZ."

"Ah! Boys, 'TIZ' is the thing!"

People who are forced to stand on their feet all day know what sore, tender, sweaty, burning feet mean. They use "TIZ," and "TIZ" cures their feet right up. It keeps feet in perfect condition. "TIZ" is the only remedy in the world that draws out all the poisonous excretions which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, callouses and bunions. It's simply glorious. Ah! how comfortable your feet feel after using "TIZ." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet.

Get a 25-cent box of "TIZ" now from any druggist, department or general store. Just think! A whole year's foot comfort for only 25 cents.—Adv.

of thy life." When Adam became wise he lost more than he had gained. So we have become wise and found we were broke and found we were in debt to our sorrow.

Be truthful, honest and faithful to the end, and we will find enough in Jesus to redeem it all. With best wishes to one and all,

Yours truly,  
Richard Kirby.

# Rheumatism Muscle Colds

"It is easy to use and quick to respond. No work. Just apply. It penetrates without rubbing."

Read What Others Say:

"Have used your Liniment very successfully in a case of rheumatism, and always have a bottle on hand in case of a cold or sore throat. I wish to say I think it one of the best of household remedies. I would not have used it only it was recommended to me by a friend of mine who, I wish to say, is one of the best boosters for your Liniment I ever saw."—J. W. Fuller, Denver, Col.

"Just a line in praise of Sloan's Liniment. I have been ill nearly fourteen weeks with rheumatism, have been treated by doctors who did their best. I had not slept for the terrible pain for several nights, when my wife got me a small bottle of the Liniment and three applications gave me relief so that I could sleep."—Joseph Tamblin, 615 Converse Street, McKeesport, Pa.

**SLOAN'S LINIMENT**  
Good for Neuralgia, Sciatica, Sprains and Bruises.

All Dealers 25c.  
Send four cents in stamps for a free TRIAL BOTTLE.  
DR. EARL S. SLOAN, Inc. Dept. B Philadelphia, Pa.

## COMMITTED TO LOCAL OPTION.

Superintendents of Education Talk of Compulsory Attendance.

(The State, 21st.)

The Association of County Superintendents of Education met in Columbia yesterday to discuss public school legislation. Another session will be held to-day.

To fill the vacancy created by the resignation of Superintendent S. M. Clarkson, of Richland, Superintendent R. T. Hallum, of Pickens, was elected president.

Twenty-nine counties were represented. The first topic taken up was compulsory school attendance. After thorough discussion, the association unanimously endorsed a bill requiring the attendance of children from 8 to 14 years of age throughout the entire session, authorizing free textbooks, providing for necessary exemptions on account of bodily, mental or financial disqualifications, and guaranteeing enforcement by adequate penalties.

The local option provision recommended by Governor Manning and by the State Department of Education was unqualifiedly endorsed by the 29 counties represented. Every superintendent present was outspoken as to his advocacy of this measure and in his hope of its enactment at the present session of the General Assembly.

Better standards of class-room efficiency and of certification of teachers were also recommended. The restoration of State teachers' certificates was especially urged.

The organization of the County Superintendent's office by providing a uniform term of four years to begin July 1 rather than January 1 was heartily endorsed. The State Superintendent recommended that each

County Superintendent be put on the same basis now recognized for County Auditor and County Treasurer.

In discussing the recommendations of the County Superintendents, several legislators attending the meeting declared themselves heartily in favor of the improvements asked for in school attendance, certification of teachers, and in the organization of the public school service in each county.

## IF CHILD IS CROSS, FEVERISH AND SICK.

Look, Mother! If Tongue is Coated, Cleanse Little Bowels with "California Syrup of Figs."

Children love this "Fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomachache or diarrhoea. Listen, mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

## Lessons Come Easier

IF the child has a big, generous light to study by. The **Rayo LAMP**

saves eye strain. It is kerosene light at its best—clear, mellow, and unflickering. The **RAYO** does not smoke or smell. It is easy to light, easy to clean, and easy to rewick. The **RAYO** costs little, but you cannot get a better lamp at any price.

## PRESIDENT A GRANDFATHER.

Son Born to Mr. and Mrs. Francis Bowes Sayre.

Washington, Jan. 17.—A son was born at the White House to-day to Mrs. Francis Bowes Sayre, President Wilson's daughter.

At 6 o'clock to-night Secretary Tammily gave out this statement:

"Dr. Grayson, the White House physician, states that at 4:30 o'clock Mrs. Sayre gave birth to a fine boy. Everything went perfectly and both are doing well. The boy weighed 7 1/2 pounds."

President Wilson made no effort to conceal his joy when informed that the child was a boy and that Mrs. Sayre was doing well. His face was wreathed in smiles. The baby is his first grandchild and the first boy in his direct family. Many congratulatory messages poured in at the White House to-night.

A name had not been selected to-night but it was expected the child would be named for the President. The christening is expected to be held in the White House before the return of Mrs. Sayre to her home in Williamstown, Mass.

Mr. and Mrs. Sayre were married at the White House November 25, 1913. After a honeymoon to Europe, they made their home in Williamstown. Mrs. Sayre has been visiting at the White House since Christmas.

## Ten Born at White House.

Ten other children, six girls and four boys, have been born at the White House, most of them grandsons or granddaughters of Presidents.

James Madison Randolph, son of Martha Jefferson Randolph, the daughter of President Jefferson, was born during a visit of Mrs. Randolph to the White House in the winter of 1805-1806. During the term of John Quincy Adams a granddaughter, Mary Louise Adams, was born there in February, 1828. While Andrew Jackson was President four children were born there, the sons and daughters of Major Andrew J. Donelson, Gen. Jackson's protégé and private secretary, and Mrs. Donelson, the President's niece.

During the Tyler administration Letitia Tyler, granddaughter of the President, and daughter of Mr. and Mrs. Robert Tyler, and Robert Jones, son of Mrs. Mary Jones, daughter of the President, was born in the White House.

During the term of President Grant, a daughter—Julia—was born to Mrs. Frederick D. Grant, the wife of a son of the President, on June 7, 1876. She is now Princess Cantacuzene-Sperankoy.

Ethel Cleveland was the only child of a President ever born in the White House.

## Big Pickens County Still.

(Anderson Mail, 21st.)

United States Revenue Officer J. A. Galloway, of this city, has returned from a very successful raid into Pickens county, where he confiscated a large 162-gallon still and 1,200 gallons of beer. It was only after diligent search that this plant was located by Mr. Galloway. It had been reported to him that there was a large distillery doing a regular land-office business, but it was very carefully guarded and hidden in an almost inaccessible cove in the mountains.

After repeated efforts the officer was able to get a line on the location of the outfit of the offenders. Taking hours in the approach to effect the capture of the culprits, Mr. Galloway finally came upon the still, only to find the operators gone. It was quite evident that the offenders had been tipped off to his approach and had managed to elude him.

## RUN AGAIN FOR GOVERNOR?

Rumors Have it that Mr. Blease Will Oppose Manning in 1916.

(Anderson Mail, 21st.)

That Governor Blease now intends to be a candidate for Governor in the summer of 1916 is the inference derived from several of his recent utterances.

An Anderson citizen was in a barber shop in Columbia yesterday, and while being waited on the late Governor was served and was on the point of departing when some one spoke up and asked him if he had time enough to listen to him a minute or so. The ex-Governor replied that he had all sorts of time; that he wasn't doing anything especially now; that his busy time would commence on the 17th day of May, 1916, when he was "going to put his name on the club roll and start again making history for the State of South Carolina." He has stated on more than one occasion since the recent election that he would oppose Governor Manning when the latter seeks re-election in 1916.
